Press release of NRN- Germany

23. April 2006

NRN Germany helps the victims in Nepal

Non-resident Nepali Association Germany expresses deep sorrows over the losses of lives and destruction of the public and private properties during continuing people's movement for democracy. NRN Germany has recently donated Euro 1500,- for the treatment of those injured people during course of pro-democracy movement. The political uncertainty and internal conflict in the country over a decade have caused enormous losses of public properties and economy development has been virtually paralyzed. The process of overall development has been set back to decades. It has also been difficult for Non-resident Nepali Associations for assisting beloved country in the process of development. At this moment, we admire the courage and patience shown by the Nepalese during this difficult period. It is high time to stop blaming each other, and come to the compromise with trust, dignity for the peaceful resolution of present crisis and facilitate the economic revolution. If we really want to see our motherland cheer, the Palace, Seven Party Alliance (SPA) and Maoist should reconcile and move one step forward for the restoration of democracy and peace in the country. NRN-Germany therefore, appeals all concerns to give immediate outlet to present political deadlock in the country and to follow the teaching of Lord Buddha: non-violence (ahimsa).

Dil Bahadur Gurung
President
NRN- Germany
